About Us

We believe in “Glocal” thinking – keeping Indian roots alive while adapting to global market expectations. We work with FSSAI-licensed, APEDA-registered, and ISO-compliant suppliers, and our manufacturing facilities follow HACCP and GMP guidelines.

Our commitment is to offer:

- Consistent product quality
- Ethical sourcing practices
- Customized packaging & branding
- Timely logistics and delivery
- Transparent documentation & compliance

Why Choose Us

Diverse Expertise – With years of experience in the spice industry, we bring extensive knowledge and expertise to deliver top-quality products worldwide. Our deep understanding of market trends and customer preferences ensures that we provide the best spices and seeds for every need.

Innovation-Driven – We continuously enhance our sourcing, processing, and packaging techniques to meet evolving market demands. By leveraging modern technology and research, we develop innovative spice solutions that retain maximum flavor and freshness.

Quality First – Our products undergo stringent quality checks to ensure purity, freshness, and superior taste. From farm to packaging, every step follows strict quality control measures to meet international food safety standards.

Customer Focused – We prioritize customer satisfaction by offering customized solutions and responsive service. Our dedicated team ensures timely deliveries, personalized packaging, and excellent support to meet specific market requirements.

Why Choose Us

Sustainable Practices – Committed to eco-friendly sourcing and packaging, we support a greener future. By working with sustainable farms and reducing plastic waste, we contribute to environmental conservation while providing high-quality products.

Global Reach – With a strong distribution network, we efficiently supply to wholesale, import-export businesses, and major retail chains across the globe. Our logistics expertise ensures fast and reliable deliveries, making our products accessible worldwide.

Advanced Packaging – Our packaging is designed to maintain product quality and increase self life of the product. We make custom package as per buyer requirements.

Our product range

Wheat flour – Wheat Flour is finely milled from premium quality wheat grains, offering excellent texture, taste, and nutritional value. Rich in fiber and essential nutrients, it's ideal for making a variety of breads, rotis, and baked goods. Processed under hygienic conditions and quality-checked at every stage, our wheat flour is packed in food-grade, export-friendly packaging to ensure freshness and purity. With consistent quality and wide application, it's perfect for private labelling and international distribution.

Our product range

Corn Flour - Corn Flour is finely ground from high-quality corn kernels, offering a smooth texture and versatile use in cooking and baking. It is ideal for thickening soups, sauces, and gravies, as well as preparing snacks, batters, and bakery products. Processed under strict hygienic conditions, our corn flour is packed in food-grade, export-quality packaging to ensure purity and freshness. With a long shelf life and global demand, it is perfect for private labelling and international distribution.

Our product range

Suji – Suji (also known as Semolina) is a coarse, purified wheat product made from premium quality durum wheat, known for its high nutritional value and versatility. It is widely used to prepare a variety of dishes such as upma, halwa, idli, and bakery products. Milled and processed under strict hygienic standards, our suji is packed in food-grade, export-friendly packaging to ensure freshness and quality. With its wide culinary use and strong global demand, it is ideal for private labelling and international distribution.

Our product range

Besan – Besan (Gram Flour) is a fine, protein-rich flour made from 100% pure chana dal (split chickpeas), known for its smooth texture and rich aroma. It is widely used in Indian cuisine for making snacks like pakoras, dhokla, sev, and sweets like laddoos. Processed under strict hygienic conditions, our besan is free from additives and packed in food-grade, export-quality packaging to ensure purity and freshness. With its high demand and versatile use, it is ideal for private labelling and international distribution.

Our product range

Bengal Gram – Bengal gram (also known as Chana Dal & desi chana) is a nutrient-rich pulse made from split and polished brown chickpeas, known for its high protein and fiber content. It is widely used in Indian cuisine for curries, soups, and snacks, offering a hearty texture and rich, nutty flavor. Sourced from premium-quality crops and processed under hygienic conditions, our Bengal Gram is packed in food-grade, export-quality packaging to preserve its freshness and purity. With strong demand in global markets, it is ideal for private labelling and international distribution.

Our product range

Green Moong Beans – Green moong (Whole Moong) are high-protein, nutrient-rich legumes known for their versatility, easy digestibility, and mild flavor. Commonly used in soups, curries, sprouting, and health-focused dishes, they are a staple in vegetarian and vegan diets. Sourced from premium-quality farms and cleaned under hygienic conditions, our green moong beans are packed in food-grade, export-ready packaging to maintain freshness and purity. With consistent quality and strong global demand, they are ideal for private labelling and international distribution.

Our product range

Adzuki Beans – Adzuki beans are small, red legumes known for their mildly sweet flavor, high protein content, and rich nutritional profile. Popular in Asian cuisines, they are commonly used in soups, desserts, and health foods, especially for their easy digestibility and antioxidant benefits. Our Adzuki Beans are carefully sourced and processed under strict hygienic standards, then packed in food-grade, export-quality packaging to preserve freshness. With growing global demand for plant-based and functional foods, they are ideal for private labelling and international distribution.

Our product range

Green Peas – Green peas are sweet, tender legumes rich in protein, fiber, and essential nutrients, making them a popular choice for both everyday meals and health-conscious diets. Widely used in curries, soups, snacks, and frozen foods, they offer great taste and versatility. Our green peas are sourced from quality farms, processed and cleaned under strict hygienic conditions, and packed in food-grade, export-quality packaging to ensure freshness and shelf stability. With high global demand, they are ideal for private labelling and international distribution.

Our product range

White Peas (also known as Safed Matar) are dried legumes made from mature green peas, known for their hearty texture and mildly sweet flavor. Commonly used in Indian street food dishes like ragda, chaat, and curries, they are rich in protein, fiber, and essential nutrients. Our white peas are carefully sourced and processed under strict hygienic standards, then packed in food-grade, export-ready packaging to maintain purity and freshness. With consistent quality and strong demand in global markets, they are ideal for private labelling and international distribution.

Our product range

Lobia Beans – Lobia beans (also known as Black-Eyed Peas) are highly nutritious legumes, rich in protein, fiber, and essential vitamins and minerals. Recognized by their distinctive black eye marking, they are widely used in curries, stews, salads, and health-focused dishes across various cuisines. Our lobia beans are sourced from premium-quality crops, processed under strict hygienic conditions, and packed in food-grade, export-quality packaging to ensure long-lasting freshness. With growing demand in international markets, they are ideal for private labelling and global distribution.

Our product range

Garbanzo Beans - Kabuli Chana (also known as Chickpeas or Garbanzo Beans) are large, cream-colored legumes known for their nutty taste, firm texture, and high nutritional value. Rich in protein, fiber, and essential minerals, they are widely used in dishes like hummus, curries, salads, and snacks across global cuisines. Our Kabuli Chana is sourced from high-quality crops, cleaned and processed under strict hygienic standards, and packed in food-grade, export-quality packaging to ensure purity and freshness. With strong global demand, it is ideal for private labelling and international distribution.

Our product range

Red Lentils – Red lentils (also known as Masoor Dal) are split lentils with a vibrant orange-red color, prized for their quick cooking time, mild flavor, and high nutritional content. Rich in protein, fiber, and essential minerals, they are widely used in soups, curries, stews, and health-focused diets around the world. Our red lentils are carefully sourced, cleaned, and processed under strict hygienic conditions, then packed in food-grade, export-quality packaging to ensure freshness and purity. With consistent quality and high international demand, they are ideal for private labelling and global distribution.

Our product range

Bajra – Bajra (Pearl Millet or Green Millet) is a highly nutritious ancient grain known for its rich fiber, protein, and mineral content, especially iron and magnesium. Commonly used in traditional flatbreads, porridges, and health foods, bajra is naturally gluten-free and supports digestive health and energy levels. Sourced from quality farms and processed under hygienic conditions, our bajra is packed in food-grade, export-quality packaging to maintain freshness. With rising demand for healthy grains worldwide, it is ideal for private labelling and international distribution.

Our product range

Ragi – Ragi (Finger Millet) is a highly nutritious, gluten-free grain rich in calcium, iron, fiber, and essential amino acids. Known for its numerous health benefits, it is widely used in porridge, rotis, baked goods, and baby foods. Our ragi is sourced from premium farms, cleaned and processed under strict hygienic conditions, and packed in food-grade, export-quality packaging to ensure maximum freshness and purity. With increasing demand for wholesome, plant-based grains, ragi is ideal for private labelling and international distribution.

Our product range

Groundnuts – Groundnuts (Peanuts) are nutrient-dense legumes packed with protein, healthy fats, and essential vitamins, widely enjoyed as a snack and used in various culinary applications. Sourced from high-quality farms, our groundnuts are processed under hygienic conditions and packed in food-grade, export-quality packaging to retain freshness. They are available in raw, roasted, or blanched forms, ideal for retail, bulk, or private labelling.

Our product range

Groundnut Oil – Groundnut oil is a premium edible oil extracted from carefully selected groundnuts, known for its light flavor, high smoke point, and health benefits. Rich in monounsaturated fats and free from cholesterol, it is ideal for frying, cooking, and seasoning. Cold-pressed or refined options are available, all packed in export-grade, food-safe containers to ensure quality and shelf life. Perfect for retail markets and international distribution under private labels.

Our product range

Castor Beans – Castor beans are a versatile crop known for their high oil content and wide range of industrial and medicinal applications. Sourced from premium farms, our castor beans are processed under strict hygienic conditions and packed in food-grade, export-quality packaging to ensure freshness and purity. They are available in bulk for industrial use or private labelling.

Our product range

Castor Oil – Castor oil is a multi-purpose oil extracted from castor seeds, renowned for its medicinal, cosmetic, and industrial benefits. It is rich in ricinoleic acid, which makes it ideal for promoting skin health, hair growth, and as a natural laxative. Our castor oil is cold-pressed or refined, depending on customer needs, and packed in export-ready, food-safe packaging to maintain its purity and shelf life. Perfect for retail, cosmetic, and industrial applications, it's an excellent product for private labelling and global distribution.

Our product range

Honey – Honey is a natural, sweet substance produced by bees from flower nectar, known for its rich flavor, health benefits, and versatility. Packed with antioxidants, vitamins, and minerals, it is widely used in beverages, desserts, cooking, and as a natural remedy for various ailments. Our honey is sourced from trusted, pesticide-free farms, carefully filtered and packed in food-grade, export-quality packaging to ensure purity and freshness. Available in various varieties like raw, organic, or flavored, it's perfect for retail markets and private labelling.

A series of thin, black, overlapping geometric lines and polygons that create a complex, abstract pattern on the left side of the slide. The lines vary in orientation, creating a sense of movement and depth.

Thank you
